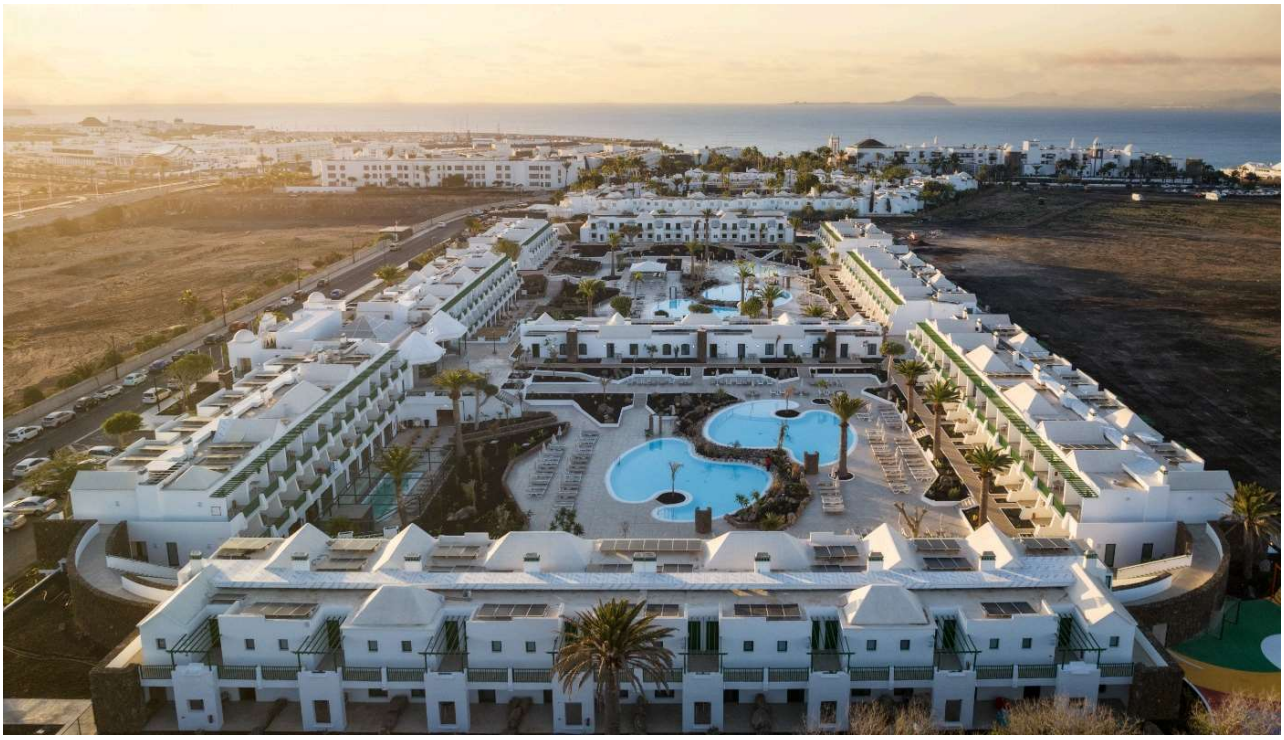
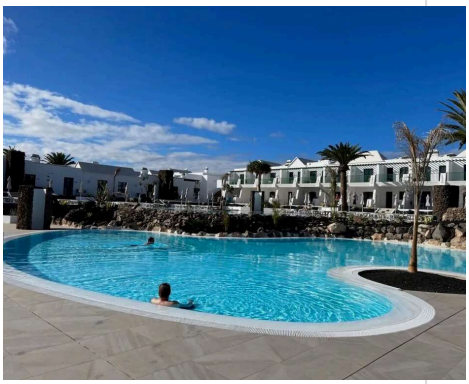
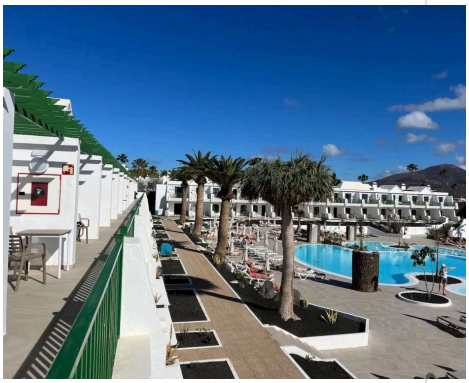
LANZAROTE

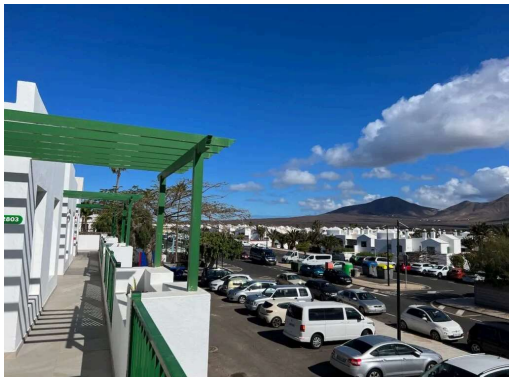
The MYND Yaiza hotel launched with a soft opening after an extensive 12 million euro refurbishment from what was Sunpark in December 2022. Situated centrally in resort, just across the road from the beautiful Playa Dorada beach and an easy stroll to Marina Rubicón or the town centre.



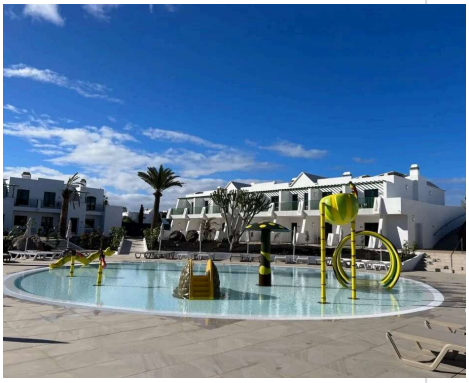
There are two halves to the hotel, one section known as **Relax Zone** is focussed on adults who prefer to have a chilled ambience.







The **Family Space** has activities and entertainment aimed at families, facilities in this area include a pool bar, a pool with slides, a heated swimming pool, and splash park for little ones. They are not exclusive zones, guests can wander freely between the two. The lobby and restaurants are designed to let both type of guests mix.



Each of the 8 blocks has rooms facing out from the hotel with street / garden view, and rooms facing inwards with pool view. Plus a small, ground floor only, row between the two pool areas. The majority of balconies are set back on an open walk way to allow access to rooms on their block.
